LIED TO DEATH:
THE GLOBAL CORPORATE MAFIA

Player Map — Who connects to whom. Updated April 4, 2026.

This document maps every documented player in the architecture described across 125+ sourced articles, federal filings, and institutional disclosures. Each entry lists the player's role, their position, and their connections to the broader structure. All claims are sourced to public filings, named reporting, or official government records.

THE BOARD — Trump Appointees & Power Network

THE ARCHITECT

Peter Thiel

PayPal mafia godfather. Funded JD Vance and David Sacks's entry into politics. Portfolio includes: Palantir (surveillance/targeting AI, stock up 340% during war), Anduril (autonomous weapons), Polymarket (war betting markets — invested $70M via Founders Fund at $1B valuation). Michael Kratsios, former Thiel Capital chief of staff, is PCAST Co-Chair alongside Sacks. On record: "I don't like the Constitution." (per Scaramucci, Pivot podcast, April 3, 2026).

THE ENGINEER

David Sacks — White House AI & Crypto Czar / PCAST Co-Chair

Designed the GENIUS Act, CLARITY Act, Bitcoin Strategic Reserve, and SEC rollback. Thiel's closest political ally since PayPal days. Craft Ventures (his VC firm) backed weapons companies whose contracts his AI czar role funded. Named PCAST Co-Chair (~March 26, 2026) to maintain White House influence after his 130-day SGE term expired. Sources: Axios; Fox Business

THE ERRAND BOY

Bo Hines, age 30 — CEO, Tether U.S. (USAT)

Shaped and shepherded the GENIUS Act from inside the White House. Left 22 days after signing (Aug 9, 2025). Received 50+ job offers from crypto sector. Hired by Tether 10 days later (Aug 19). Named U.S. CEO (USAT stablecoin) Sept 12, 2025. Now publicly calls Tether 'a top 10 T-bill purchaser in the United States.' NXUM Capital (co-founded with Nav Singh) donated $1M to Trump's MAGA Inc. super PAC one week before the November 2024 election. NXUM website subsequently scrubbed. Sources: Fortune; CNBC

THE BANKER

Howard Lutnick — Secretary of Commerce

Former CEO, Cantor Fitzgerald — one of 26 Fed primary dealers. Cantor custodies 99% of Tether's ~$141B in U.S. T-bills. Cantor holds ~5% equity in Tether worth an estimated $600M–$25B. Tether made a loan to 'Dynasty Trust A' (Lutnick's children) as they acquired Cantor from him. Son Brandon Lutnick (age 28) is now Cantor's chairman/CEO. Name appears in 250+ Epstein documents; admitted visiting the island in 2012 (post-conviction). Described as 'on thin ice' by a senior WH official per ProPublica. Twenty One Capital (Cantor + Tether joint Bitcoin vehicle, $3.6B, Nasdaq: XXI). Sources: Bloomberg; ProPublica

THE MUSCLE

Steve Feinberg — Deputy Secretary of Defense

CEO, Cerberus Capital Management ($65B AUM). Portfolio companies: DynCorp (private military), Tier 1 Group (trained 4 of the Khashoggi assassination team members), Navistar Defense, TransDigm. Golden Dome missile defense program ($151B) — ProPublica documented 4+ Cerberus portfolio companies received contracts he technically oversees. Nominally 'divested' but retained a Cerberus services contract. Sources: ProPublica

THE FIXER

Todd Blanche — Acting Attorney General (installed April 3, 2026)

Trump's personal criminal defense attorney in 3 federal cases (NY hush money, Jan 6 federal case, Mar-a-Lago classified docs). As Deputy AG, issued April 7, 2025 NCET memo disbanding DOJ's crypto enforcement unit while holding $159K–$485K in personal crypto. Bitcoin appreciated ~34% between memo date and nominal 'divestment.' Divested by gifting to adult children and a grandchild — not open-market sale. Six U.S. senators filed formal conflict-of-interest letter. Campaign Legal Center filed criminal complaint under 18 U.S.C. § 208(a) (max 5 years). Personally interviewed Ghislaine Maxwell in prison. Told NY Post on April 3: Epstein explanation 'is simply not true.' Now controls BOTH the Tether DOJ file AND the Epstein file as top law enforcement officer. Sources: Gizmodo; CNBC; ProPublica

THE WEAPON

Alex Karp — CEO, Palantir

Palantir's Maven Smart System delivers 1,000 targeting decisions per 24 hours. Stock up 340% since the Iran war began. Palantir also invested in Polymarket's market surveillance system — the same AI architecture used for military targeting monitors prediction market activity. Thiel co-founder and largest government AI vendor under the Trump administration, with $300M+ in new/expanded contracts including FAA, CDC, Fannie Mae, ICE, and IRS. Sources: Palantir earnings; Revenue Memo

THE MONEY

Larry Fink — CEO, BlackRock ($10T AUM)

Aladdin AI risk-manages $21 trillion in assets — approximately 1% of all global assets. BUIDL fund: first institutional money market fund on a public blockchain. Aspen Institute board. Tokenization push: 'Tokenization will transform finance the way the internet transformed communication.' April 3, 2026: blocked withdrawals from private credit funds (alongside Apollo and Ares). BlackRock IBIT (Bitcoin ETF) contributed $109.3M in single-day inflows post-Bitcoin Reserve EO. Sources: BlackRock filings; Bloomberg

THE INFRASTRUCTURE

Larry Ellison — Oracle / PCAST

Oracle provides DOD cloud infrastructure and classified intelligence computing. PCAST member. Son David Ellison controls Skydance Media, which owns the news networks covering the government Larry's technology serves. Iran: Iranian state media claimed to target Oracle data centers in retaliation for U.S. strikes. Sources: PCAST EO; DOD contract records

THE BAG MAN

Jared Kushner — Affinity Partners

$6.2B AUM. 99% of capital from foreign sovereign wealth funds, primarily Gulf states (Saudi, UAE). Capital raised while Kushner served as presidential adviser managing Gulf relations. Now raising an additional $5B from Saudi/UAE while simultaneously negotiating U.S. policy with those same governments. Sources: Financial Times; Senate oversight letters

THE NEGOTIATOR

Steve Witkoff — Middle East Peace Envoy

Controls the diplomatic terms of ceasefires and escalations, shaping oil supply routes and regional stability. Father of Zach Witkoff (CEO, World Liberty Financial). The same family: one member controls geopolitical conditions determining oil supply; the other controls the stablecoin that captures resulting settlement demand.

THE HEIR

Zach Witkoff — CEO, World Liberty Financial (WLFI / USD1)

USD1 stablecoin: $5B in reserves. UAE Royal Family owns 49% of WLFI equity. DT Marks LLC (~70% Trump-controlled) receives 75% of token sale revenue. $1.2B+ cashed out to date. USD1 settled a $2B Binance/MGX Abu Dhabi deal — flagged by Sen. Elizabeth Warren as possible quid pro quo. April 2, 2026 public statement: 'The most-traded asset on Hyperliquid is actually tokenized oil.' His father negotiates the war. He profits from its settlements. Source: @SenseReceptor, April 2, 2026

THE HOUSING MAN

Jeffrey Sprecher — CEO, Intercontinental Exchange (ICE)

ICE owns: MERS (85% of U.S. mortgage registrations), Ellie Mae (50% of all originations), Black Knight (65% of mortgage servicing), NYSE, and a tokenization partnership with Securitize. Wife Kelly Loeffler (former U.S. Senator) now heads the Small Business Administration. Sprecher controls the U.S. housing market end-to-end — origination, registration, servicing, and securitization. Identified by institutional source 'Eddie (Tokyo)' as the 8th structural player; described the architecture as 'RICO-type.' Source: ICE filings; Securitize partnership announcements

THE FAMILY FRONT

Eric Trump & Donald Trump Jr. — Co-founders, American Bitcoin Corp

Mining facilities in New York, Texas, Alberta. Approximately 20% ownership stake. ~$500M Bitcoin on balance sheet. On record: Eric Trump to FT on family's $1B+ crypto earnings: 'Probably more.' To CNBC, February 2026: 'It's gratifying to have this opportunity for retribution.' Forbes (Sept 2025): Trump family net worth at $10B, nearly doubled since November 2024 election. Sources: Fortune; Forbes

THE OPERATOR / CEO

Paolo Ardoino — CEO, Tether (globally)

$141B in reserves. $10B annual profit (BDO-attested). ~550 million users worldwide. Registered: British Virgin Islands. Zero interest paid to stablecoin holders — mandated by GENIUS Act Section 4(a)(11). Tether is the largest non-government holder of U.S. T-bills in the world, exceeding the Treasury holdings of multiple sovereign wealth funds. Sources: Tether.io BDO attestation

THE OPERATOR / FUNDRAISER

Nav Singh — NXUM Capital / Goldman Sachs veteran

Goldman Sachs, PIMCO, Guggenheim alumni. Co-founded NXUM Capital with Bo Hines. NXUM donated $1M to Trump's MAGA Inc. super PAC one week before the November 2024 election — the fundraising vehicle that launched the career that wrote the GENIUS Act. NXUM website subsequently scrubbed. Source: Fortune; FEC filings

THE CATALYST

Benjamin Netanyahu — Prime Minister of Israel

1992 Knesset testimony: Iran is '3–5 years from a nuclear bomb.' Same claim in 1996, 2002, 2009, and 2012 (cartoon bomb at UN General Assembly). Iran did not build the bomb. What the 40-year campaign produced: $310B in cumulative U.S. military aid to Israel, the killing of the two-state solution, the arming of the assassination apparatus, and eventually the war he had been predicting for four decades. AIPAC: $100M in 2024 federal elections. Nobody asked: then what? Sources: Congressional Research Service; AIPAC disclosures

THE NARRATOR

THE NARRATOR

Arn Menconi — Investigative journalist / Author

Two-term elected County Commissioner, Eagle County, Colorado. MBA, University of Denver. Resolution Trust Corporation (RTC) project manager during the Savings & Loan crisis — the last time the U.S. government restructured a collapsed financial architecture at scale. Founder, SOS Outreach (20 years, 100,000 young people served). Seven-time candidate for office. Seven arrests for civil disobedience. Interviewed Daniel Ellsberg for 40 hours over 10 days at his home in Kensington, California. Working from 125+ documented sources. Writing from outside the United States.

KEY VALIDATORS (Private — Not Public Co-Authors)

The following individuals have provided private validation of the structural analysis. They are not public co-authors of this investigation.

STRUCTURAL VALIDATOR

Catherine Austin Fitts — Former HUD Assistant Secretary

Former Assistant Secretary of Housing and Urban Development under President George H.W. Bush. Privately reviewed and validated the structural analysis of the GENIUS Act architecture. Assessment: 'A feature of the structure, not a bug.' Her HUD experience gives particular weight to her validation of the housing-finance-crypto integration pillar (Sprecher/ICE).

INSTITUTIONAL VALIDATOR

'Eddie' — Tokyo-based institutional source

Institutional source with visibility into cross-border financial flows and market structure. Flagged Jeffrey Sprecher / ICE as the critical 8th structural player in the architecture — completing the housing pillar. Characterized the documented pattern as 'RICO-type' in private communications. Not named publicly.
